

MAESTRO

DISINFECTANT AND STAIN REMOVER

MATERIAL & FUNCTION

MAESTRO is an excellent disinfecting agent and may be used to treat most stains caused by moss, moulds, tannins and leaf stains on masonry and timber surfaces. MAESTRO contains 12.5 % weight to volume available chlorine. It is an excellent disinfecting agent and as such will kill spores that create moss and mould.

APPLICATION

- Dilution - 1 part MAESTRO to 5 parts water mix.
- Before applying, test in a small inconspicuous area; if there are adverse reactions do not continue.
- Boral Masonry Pavers - pour on to the affected areas.
- Boral Masonry Walls - apply mix with a mist spray container.
- This should be left to soak in for a period of 30 minutes.
- The area can then be hosed off.
- Use a stiff brush or deck broom to remove the remains of the mould.
- For total kill, a repeat of this procedure is recommended.

Sealing*

- For ease of maintenance, sealing is recommended.
- Ensure area is thoroughly dry prior to applying Stone Clear.

CAUTION

Avoid contact with skin and eyes and avoid breathing vapour or spray mist. Do not mix with other types of chlorinating compound, acids, oxidizing agents, organic materials or other chemicals

PACKAGING

1 Litre, 5 Litre & 15 Litre containers
